Subject: Microsoft Settlement

Dear Sir or Madam,

I would like to comment on the proposed settlement of the DOJ and nine states attorneys general vs. Microsoft. I consider this a very poor settlement proposal in regards to the findings of the appeals court in this case. The proposed settlement has very little purposeful punishment of the crimes committed by Microsoft. Also, the wording of the settlement provides many cases where Microsoft can effectively continue business as usual, including competitive practices that have been found illegal by the appeals court. I ask that this proposed settlement be rejected and that either the court construct an appropriate judgment or consider the counter-proposal of the nine states that did not sign on to this proposed settlement.

Thank you,
